

Docklight DLF / DLS / DLD series

i-LIFT Docklights are designed to illuminate the interior of trailers, allowing more efficient loading and unloading, resulting in fewer mistakes and lower risk of accidents. Heavy-duty durable materials and a concealed cord helps to prevent damage if an accidental impact occurs.

- ▲ Three types: Flexible Tube, Single Wall Mount, Double Wall Mount.
- ▲ Offers energy efficiency and longer life.
- ▲ High intensity 12 watt LED offers low power consumption,
- ▲ Average 50,000 hours of life.
- ▲ Optional fans for DLD.
